

Love Me In a Special Way

Tamia

Mmm, yeah, tell me that you like it, oh, yeah, yeah
Woo, let's see if you remember this one
Do I? Oh, now I have to go there, ooh, mmm, yeah
Let me show you just how much I know this record
You know you had me
With your sensuous charm
You looked so alarmed
As I walked on by and oh, some wonder
You had to know why I did not respond to carry on
Love me in a special way
What more can I say?
Love me now
Love me in a special way
What more can I say?
Love me now Love me now 'cuz I'm special
Not the average kind
Who'd accept any line
That sounds good So reach into your chain of thoughts
Try to find something new
What worked so well for you before
For me, it just won't do, no Love me in a special way
What more can I say?
Love me now
Love me in a special way
What more can I say?
Love me now Ooh, ooh
Oh, yeah, yeah
Mmm, hmm So reach into your chain of thoughts
Try to find something new
'Cuz what worked so well for you before
For me, it just won't do, no, no Love me in a special way
What more can I say?
Love me now
Love me in a special way
What more can I say?
Just love me now Love me in a special way
What more can I say?
Just love me now
Love me in a special way
What more can I say?
Love me now, boy

Love me now Love me in a special way
Love me everyday
What more can I say?
Just love me now Love me in a special way
Love me everyday
What more can I say?
Just love me now
