And Fools Shine On

Brother Cane

Come and see me
Can't you see me?
It's so easy
To believe in you
I believed in youYour attention, my addiction
Fear no evil
You'll be safe in here
I was saved in hereAnd fools shine on
When fools shine onWant tomorrow
No tomorrow
Come together
For the here and now
And we need it nowWalk the narrow
Straight and narrow
Look behind me
There's a light out there
In your light I stareAnd fools shine on
When fools shine on
And fools shine onWhere your eyes won't
Open, fade or divide
Peace from your darkest hours
Bathe in your light, yeah, yeahCome and see me
Can't you see me?
Come and see me
You'll be saved in hereAnd fools shine on
When fools shine on, yeah
And fools shine on
When fools shine on...
