Wild Ride

MOTHXR

With you inside my palm
It's clearer
We're aching for them allIf you're afraid
I know
With you inside my bones
You're biggerSo until
I get it right
Still it was a wild rideThe night was always long
I see it
We're aching from the fallWhen you're alone
You know
With me inside your bones
I'm near itSo until
I get it right
Still it was a wild ride
