Undercover Angel

Buddha-Bar

I saw you in a river
Stardust and golden spray
Was sent down by the good sun
Covered you and made you shineAn angel thats what you are
But this shining flower
Knows it can stingI know my mind is
Taken over by this satellite
In the land of cloud
Where you fell fromAn angel thats what you are
But this shining flower
Knows it can stingHonesty it could destroy me
Angel is worth the risk
Being sentenced by a Pilate
To my dreamland crossAn angel thats what you are
But this shining flower
Knows it can stingI know my mind is
Taken over by this satellite
In the land of cloud
Where you fell fromAn angel thats what you are
But this shining flower
Knows it can sting
