

# Killing Me to Love You

## Vancouver Sleep Clinic

Your body is broken but you're trying to fight this  
Your arms are weary but you're trying to like this I, I'll bring you home, it's been so long  
Aaah we're fighting the laws/light(?) back to where you belong It's growing faster than you're grown  
Now you're stronger than yourself  
I'm fighting for you  
I'm hiding for you  
But it's killing me to love you  
But it's killing me to love you  
But it's killing me to love you  
You lost it all and then you're been left talking(?)  
And you were starting to heal but you've been tearing apart this(?) It's growing faster than you're grown  
Now you're stronger than yourself  
I'm fighting for you  
I'm hiding for you  
But it's killing me to love you  
But it's killing me to love you  
But it's killing me to love you  
I want to keep faith, but you're making it harder  
(But it's killing me to love you)  
I'm reaching out now but you're pulling me under  
(But it's killing me to love you)  
I give you my heart just to watch you waste it  
(But it's killing me to love you)  
And I can't let go when you still need saving
