

Caffeine Cold

Fall Out Boy

I just want to fill you all with such dread
Let you suck it out, let you suck it out 'til I'm dry and dead
Now I've got love flowin' in my nightmare girl
Caffeine cold, caffeine cold and I can't see shit
Don't breathe life into a monster then
Complain when he destroys it all again
Don't breathe life into a monster then
Complain when he destroys it all again
Now I smell like cigarettes cause I love to breathe your smoke
I smell like alcohol cause I drink to believe in more
I have 3 drinks before I even start to count
I think I'm gonna move way down south
Don't breathe life into a monster then
Complain when he destroys it all again
Don't breathe life into a monster then
Complain when he destroys it all again
