

# Walk In The Sun

Bruce Hornsby

My name is Vernon James and I live to the south of town  
I work my window watching the women go round and round  
Some people come here for love  
Some people come for fantasy  
When two in the morning comes around  
My baby comes around for me Someone come, come my someone  
Take the clouds from my eyes, the one  
I know that sometime soon  
One day, we'll walk in the sun I'm taking tickets and watching the men always looking down  
Sometimes I feel like an animal in the zoo staring out  
No one looks me in the eye  
They save it for the girls inside  
I don't care much what they see  
I know she saves it all for me Someone come, come my someone  
Take the clouds form my eyes, my one  
I know that sometime soon  
One day we'll walk in the sun Some people come here for love  
Some come for curiosity  
I know there will be a day  
I know we'll figure out a way Someone come, come my someone  
Take the clouds from my eyes, my one  
I know that sometime soon  
One day we'll walk in the sun
