

# Really Got A Problem

## Rick Astley

Roo, roo, roo  
Roo, roo, roo  
Roo, roo, rooHere we are  
Ridin' high  
We've come so far  
We can touch the skySo why can't we live together?  
Can't we be friends?  
Why must we fight our brothers  
Til' the bitter end?We really got a problem  
We don't know how to fix, yea  
There ain't no special reason  
We just can't do itTalk to me  
Scream and shout  
Trust in me  
We can work it outWe all know the world keeps turnin'  
One day at a time  
Easier lessons for leavin'  
We just couldn't findWe really got a problem  
We don't know how to fix but then yea  
There ain't no special reason  
We just can't do itSo why can't we live together?  
Can't we be friends?  
Why must we fight our brothers  
Til' the bitter end?  
Ooh, yea  
Won't you trust in me?  
I know we can make it, yeaI close my eyes and look inside  
For a picture of how it should be  
And I wonder if you could see what I see  
Would you ever choose to live the way you doWe really got a problem  
We don't know how to fix but then yea  
There ain't no special reason  
We just can't do itWe really got a problem  
We don't know how to fix but then yea  
I know we got the pieces  
But they just don't fitWe really got a problem  
We don't know how to fix this  
I know we got the pieces  
We just can't do it
