

# Taking the Farm

## The War On Drugs Music

You seem a little on the high side  
Disconnected from me  
Been a little to anxious and a little too sweet  
Have you been chopping down treetops tree after tree  
Have you been digging for diamonds at the bottom of the sea  
He said I'm taking the farm out from under your  
knees  
Said I'm taking the air and? the? upon  
Come on meet me where the highways and the one way streets  
Come together like the motion  
Comes together with my feet  
Well top and bottom it's all the same to me  
Until all my breathing air is gone  
Well you feel it in the ozone zone zone  
You can feel it in the knees knees knees  
You can feel it in the dirt that's going under your feet  
You can feel it in the highways and the one way streets  
When you're digging for diamonds at the bottom of the sea  
You seem a little on the high side  
Disconnected from me  
Been a little to anxious and a little too sweet  
I'll be chopping down treetops tree after tree  
When I'm confusing my highways for a one way street
