Heaven To Earth

Michael English

In the darkness I laid weeping
Feeling hopeless and alone
No place to run no one to turn to
On the edge of hanging on
What faith I had was shaking
I cried out in desperationFrom Heaven down to earth like a soft rain falling
You came to me and bathed me in your love
Into your arms like a baby I came crawling
You held me till I was strong enough
I prayed a prayer and I was heard
From heaven to earthIn your light now I am standing
Filled with hope and unafraid
From your act of tender mercy
Once again I've found my way
Just when I thought my world was ending
You showed me a new beginningFrom Heaven down to earth like a soft rain falling
You came to me and bathed me in your love
Into your arms like a baby I came crawling
You held me till I was strong enough
I prayed a prayer and I was heard
From heaven to earthmusical interludeFrom Heaven down to earth like a soft rain falling
You came to me and bathed me in your love
Into your arms like a baby I came crawling
You held me till I was strong enough
I prayed a prayer and I was heard
From heaven to earthI prayed a prayer and I was heard
From Heaven to earth
