

# Little Bird

## Sonos

Of all the things I find in life  
No moments better than this  
Of all the things I didn't know  
Nothing prepared me for you're kiss  
If we fly...  
If we fly...  
If we fly into the sun  
Of all the things I needed baby  
You were my cherished one  
Little bird told me, that you can't find you're way home  
Little bird has showed me, that you can't run away from love  
Darkness falls upon the city  
Like the ocean falls upon the sand  
Waves of sorrow leave me breathless  
Can you love this broken man  
If I try.  
If I try...  
If I try to love again  
I wake up every morning, unsure of where I stand  
Little bird told me, that you can't find you're way home  
Little bird has showed me, that you can't run away from love  
Open wide my feelings and tear me down until I  
break  
Show me what the real is  
Guaranteed to seal faith  
If I fly  
If I cry  
If I cry when you'll be gone  
Help me by my sadness tell me I am the only one  
Only...  
Only...  
Angel  
Hold me...  
Hold me...  
Hold me...  
Angel  
Love is only givin' when you feel it in you're heart  
I know it when you, kiss my body, loving every part  
Of all the thing I find in life, no moments better than this  
Of all the things I ever knew, nothing prepared me for you're kiss  
If we fly  
If we fly  
If we fly in to the sun  
Of all the things I needed baby  
You were my cherished one  
Little bird told me, that you can't find you're way home  
Little bird has showed me that you can't run away from love
