

Save Your Heart

Mayday Parade

She fell to the bottom of her life
This wasn't meant for her too
She struggles to find herself in time
But she can barely move
Just try and get up
You've gotta slowly brush off
I know that words aren't enough
But you're better than this Save your heart
For someone that's worth dying for
Don't give it away
Torn apart
Never getting what you've been crying for
It's always the same She turns the pages everyday
Just to change the mood
But every chapter reads the same
So hard to make it through
Just try and get up
You've gotta slowly brush off
I know that words aren't enough
But you're better than this Save your heart
For someone that's worth dying for
Don't give it away
Torn apart
Never getting what you've been crying for
It's always the same And you give
And they take
And it's love that you want
But not love that you make
Save your heart
For someone that's worth dying for
Don't give it away Save your heart
For someone who leaves you breathless
And I know that you're scared
Seems like someone said you had it in you
All along you said you knew this was wrong
But still worth dying for Save your heart
For someone who leaves you breathless
And I know that you're scared
Seems like someone said you had it in you

All along you said you knew this was wrong
But still worth dying for And you give (And you give)
And they take (And they take)
And it's love that you want,
But not love that you make Save your heart
For someone that's worth dying for
Don't give it away
Don't give it away
