Thorn

Blind Guardian

A black swan is born that night
The misty pond
(Has)
Got a new king, got a new king
So what can we do with our livesWhen it all begins
It's hard and it's cruel
Will grace die in pain?
Will light ever rise again?I'm trapped in darkness
Still I reach out for the stars
I'm moving in silence
I leave it all far behindOh, at dawn
I'll face the edge of thorns
Oh, at dawn
I'll pray at the edge of thorns
Oh, at dawn
I'll face the edge of thornsLet us march on to the fields of sacrifice
(I'm)
Wondering why I'll carry on
Will I betray myself to riseIn the silence it's time to explain
(And)
Search for truth in lies, useful lies
Needless love's damnedWhat can we do with our lives
When it all beginsOh, at dawn
I'll face the edge of thorns
Oh, at dawn
I'll pray at the edge of thorns
Oh, at dawn
I'll face the edge of thornsCome follow me
And you will see
How it will be
When all the pain is gone awayOh, at dawn
I'll face the edge of thorns
Oh, at dawn
I'll pray at the edge of thorns
Oh, at dawn
I'll face the edge of thornsLet us march on
Though there's no hope at our side
Let us be brave
Though by glory we are denied

But don't you think it's time for us
To bring to an endCome play the song of death
The wisdom in us both
Will make it Special guaranteed
Play the song of deathI'm lost in the depths of his eyes
I can't flee
Inner pain caused insanity
It's deep withinThe fear and the hunger
Enslaved and denied
By my love and my enemies
I'm the ill gotten sonOh, at dawn
I'll face the edge of thorns
Oh, at dawn
I'll pray at the edge of thorns
Oh, at dawn
I'll face the edge of thorns
