Belief

Deadly Nightshade Botanical Society

Heretic
What have I believed?
Broken vows
Religious jelousy
Heritic
a wanton bastard release
Death won't mean a blessed thing to me

Raging loss
what my sins will cost
bun in hell
or live by the cross
carried lies like rotton fruit
to face the reason the painfull truth that

I've lost all my hope
all my dreams
Religious sactitiy
Across the threshold I see release
It's dangled in front of me

All I know
All I need
Wasted on this false belief
What do you
want from me?
this desperate act will set me free

Shadows crawl
where I walk alone
witness pain
all man kind condones
Driving on with prayer won't hold
this craven act to release my soul

Lost all my hope
all my dreams
religious sanctity
across the threshold
I see release

dangled in front of me

All I know
All I need
wasted on this false belief
what do you want from me?
this desperate act will set me free.
