Always Something

Jessica Folker

Well it's 4 A.M. and it seems to me
Tonight's not going down in history
But I'll tell you something honey
It's always better when I'm with you
The glitz and glamour and all the fame
All the big stars trying to make a name
And I'll tell you something else
It's always better when I'm with you
It's always better when I'm with you
It's always better when I'm with you
It's always better when I'm with you
Tonight I just don't want to say goodbye to you
I just don't want to say it's over to get me through
Tonight, tonight, tonight you're part of me
Well call the records and stop the press
And did I tell you that I'm impressed with your
Beautiful smile and your plastic dress
But I've got a girl for me at home
The kids are hanging out in Leicester Square

Looking at me like I even care
But I'll tell you something else
It's always better when I'm with you
It's always better when I'm with you
It's always better when I'm with you
It's always better when I'm with you
Tonight I just don't want to say goodbye to you
I just don't want to say it's over to get me through tonight
Tonight I just don't want to say goodbye to you
I just don't want to say it's over to get me through
Tonight, tonight, tonight you're part of me
Tonight I just don't want to say goodbye to you
I just don't want to say it's over to get me through tonight
Tonight I just don't want to say goodbye to you
I just don't want to say it's over to get me through
Tonight, tonight, tonight you're part of me
Tonight you're part of me
Tonight you're part of
You're part of me
