

# Athene

## Hercules and Love Affair

Athene  
Shes the woman of war  
She gives us the reasons  
Reasons worth fighting forAthene  
She offers protection  
She taught me how to make  
Make my life's reflectionHow i yearn for her wisdom  
I look in every face  
The grey eyes, the gentle kiss  
I look for the safe placeAthene  
Not perfect but still strong  
Warring with her own love  
Singing a woman's songAthene  
With her hand she could give  
Through the battles of her life  
She's shown me how to liveHow i yearn for her wisdom  
I look in every face  
The grey eyes, the gentle kiss  
I look for the safe place
