

# Shot Big Horizon

## NewVillager

Baby donâ€™t lick your wounds clean  
Need now be making your own dream  
Three breaths til the light go green  
These bones feel cold and heat

You gonna be a black crow boy  
You gonna breathe out old joy  
You gonna go play the game now three times over  
You gonna breathe out old joy  
You gonna let sky slide by  
You gonna go play the game three times til you  
Shot into the whole big horixon

It ainâ€™t like old times  
Nobody gonna tell you  
wrong and right  
Put up a good fight  
When all the people tell you  
day is night

Inside of me all delusions
