# Locate

## Cyclefly

Your love to be may get the best dance
Waiting by the bus stop
I was human for an instant
Screaming from the rooftops
The worlds on fire
The worlds on fire
Locate, locate, locate, locate, locate, locate
So you win again
I saw you screaming in the distance
Screaming from the rooftop
Almost blew me for an instant
Staring at a sun-spot
The worlds on fire
The worlds on fire
Locate, locate, locate, locate, locate, locate
So you win again
Locate, locate, locate, locate, locate, locate
So you win again
So you win again
So you win again
Win again
Win again
Win again win again
You got to win again
Win again
Win a-gain
Win a-gain
Win a-gain
The worlds on fire
The worlds on fire
The worlds on fire
The worlds on fire
Locate, locate, locate, locate, locate, locate
So you win again
Locate, locate, locate, locate, locate, locate
So you win again
Memories that froze in time, that they hyponitised
Best to be out-spoken
Such energy in hollow times, that it grew divine

Never less out-spoken
Memories that froze in time, that they hyponitised
Best to be out-spoken
Such energy in hollow times, that it grew divine
Never less out-spoken
Memory's a frozen time that they hypnotised
Best to be out-spoken
Such energy in hollow times
That it grew divine (x5)
