

Your Love

[Austin Plaine](#)

I could drive the coast of California if I like
And I could fly to Paris or Osaka every night
I could be everywhere or anywhere the wind might take my soul I don't wanna be anywhere other than your love
I don't wanna be anywhere other than your love I could be the hero high upon that silver screen
And I could be the figure head of high society
I could be
I could be anything or anyone you'd ever wanna know
I don't wanna be anywhere other than your love
I don't wanna be anywhere other than your love I could be everywhere or anywhere the wind might take my soul
I could be anything or anyone you'd ever wanna know
I don't wanna be anywhere other than your love
I don't wanna be anywhere other than your love
No, I don't wanna be anywhere other than your love
I don't wanna be anywhere other than your love
Other than your love
