Retina And The Sky

Idiot Pilot

The golden shore of certainty
And riding on simply
Because there's nothing else to do
When nothing ever gets done but
I can see the day turning bright
Up ahead, up ahead
I can see the day turning bright
Up ahead
The pleasant odor of apathy and everlasting
Peace of mind that comes with time
And smashing through the windshield, I
I can see the day turning bright
Up ahead, up ahead
I can see the day turning bright
Up ahead
Could you tell me where we'll be
When the light is taking over everything?
Could you tell me where we'll be
When the light is taking over everything?
I can see the day turning bright
Up ahead, up ahead
I can see the day turning bright
Up ahead
Better than I've ever known
Better than I've ever known
Better than I've ever known
