

Serious Juju

[Sammy Hagar](#)

Dont disturb my paradise
Ive asked you once, I asked you nice
Mother Earth will punish you
With some serious jujuAstronomical divide
We stand and watch two worlds collide
Paranoia, paralyzed
We need some serious jujuUntied from the whippin' post
Set free from Marys spell
Cut loose from the ball and chain
9 steps from the wishing wellTuggin on the Devils sleeve
Hell cut a deal for me
Locate me anywhere, Ill be there
Its serious, its seriousThe politicians speech is jive
He lies to keep the lie alive
While mass confusion makes em strong
Its serious, serious jujuGot no agenda here
I got to scream it out
Moments of clarity
Id rather be withoutIts never loud enough
Shouts out a distant child
Ignore my bloody throat
Ill go the extra mileIts serious, woo, juju
Yeah, its serious juju
Somebody save the world
Its serious, its serious jujuSomebody save the world
Its serious, its serious juju
Somebody save the world
Its serious, so serious jujuSomebody save the world
Its serious, its serious
Its serious juju
