

# Above All (Sted-E & Hybrid Heights Club Mix)

Sylvia Tosun

Time. Life. Love. Hold on.  
Fine line to walk on. Too lost to find my words, your answers  
we've come so far without an anchor  
Evolving from the start  
Trying not to falter  
We're leaving who we are  
To find our ever after Rise up to a place  
Above all  
Above all  
High enough to see a way  
Something to believe  
Above all  
Above all  
Time for us to float away The love we chase along a spiral staircase  
Will lead us to the choice we're meant to face  
A shadow in the sun  
Escaping from the echoes  
A thousand ways to run  
But nothing holds us back now Rise up to a place  
Above all  
Above all  
High enough to see the way  
Something to believe  
Above all  
Above all  
Time for us to float away Time. Life. Love. Hold on.  
Fine line to walk on. Rise up to a place  
High enough to see  
Time for us to float away  
Float away Rise up to a place  
Above all  
Above all  
High enough to see a way  
Something to believe  
Above all  
Above all  
Time for us to float away
