

# Down in the Dark

[Mark Lanegan](#)

Baby, you're goin' down in the dark  
Show my lonely night is fallin'  
I don't have very long  
I think my blood might boil  
Then my veins might burn  
And you're gonna make it better for a little while  
Baby, you're gonna die someday  
See you when you're crawlin', wasted  
Then you'll start to fade  
That won't be so, I'm sinkin' faster  
I wouldn't wait so long  
It won't get any easier in the dark  
Oh yeah, you will  
You will, you will  
You will, you will  
Baby, you're goin' down in the dark  
Think my lonely night is fallin'  
I don't have very long  
Think my blood might boil  
And then my veins might burn  
And you're gonna make it better for a little while
