The Rules

Saigon

Years ago I lost my guard
Ever since it's been hard
Standing up like a man
Like a father understand
That all I do
Is not enough for myself
I am tough on myself
I need to freeze, I need direction, oh pleaseShow me all the rules girl
I just want to get 'em wrong
Show me all the rules girl
I just want to belongBut first I'm gonna sing my songI try to do what is right
I try to win without a fight
From time to time I turn around
To their gun on the ground
I try to seek more than this
A nice smile, a wet kiss
Don't want to miss what I'm looking for
But it's behind your doorShow me all the rules girl
I just want to get 'em wrong
Show me all the rules girl
I just want to belongShow me all the rules girl
I just want to get 'em wrong
Show me all the rules girl
I just want to belongShow me all the rules girl
I just want to get 'em wrong
Show me all the rules girl
I just want to belongShow me all the rules girl
I just want to get 'em wrong
Show me all the rules
I just want to belong
