

Promise Me

The Birthday Massacre

We don't know what time we'll be there
But we won't show up 'til later
It will all look so much nicer
After all of us arrive Promise me to pass the time
Dance with me on plastic tears
Kiss me, we won't feel alone
'Til morning when we disappear Though we all want to be noticed
There's no need for competition
'Cause there's just no way of knowing
Where the camera points tonight Promise me to pass the time
Dance with me on plastic tears
Kiss me, we won't feel alone
'Til morning when we disappear We don't listen to each other
'Cause we're all too busy talking
We'll tell lies about each other
'Cause the truth is such a bore With the threat of dawn approaching
And our interest quickly fading
We will stumble home together
As we did the night before Promise me to pass the time
Dance with me on plastic tears
Kiss me, we won't feel alone
'Til morning when we disappear
