Cynthia

Tonino Baliardo

So you saw that fire in the sky
Well, I think that's so cool
And I know that nothing'll change you
You are nobody's foolCynthia, won't you take me to
Pyramid Lake with you?
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless nightAnd you stood in their beam of light
And they showed you the bones on the moon
Well, I hope I get to go there
With you real soonCynthia, won't you take me to
Pyramid Lake with you?
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless nightAnd we get there before the sun sets
And we'd put up your tent
Watch the stars dance all night
And watch that sun come up
(Watch that sun comin' up)Cynthia, won't you take me to
Pyramid Lake with you?
We could watch the spaceships
Maybe they'd take us on a trip
Into that never ending sky
Into that wide and endless night
Into that never ending sky
Into that wide and endless night
