Dial 'M' for Murder

Crash Romeo

I can't sleep tonight,
Smell of cigarettes on your sheets.
Why won't you just
Get the hell out of my dreams?
I've been locked down so long
And I've been driving on this road for days.
You say anything
It won't bring you down,
This song will capture
Your heart and your sound.
You say anything
It won't bring you down,
And I'll never fall in love again.
Silence won't last,
I got my finger on the trigger.
I hoped and prayed
My hand would slip.
When you left
I was holding my breath,
Now that you've gone
My lungs can finally rest.
When you left
I was holding my breath,
Now that you've gone
My lungs can finally rest.
You say anything
It won't bring you down,
This song will capture
Your heart and your sound.
You say anything
It won't bring you down,
And I'll never fall in love again.
I don't want to bring you back from the dead;
This song is killing me right now.
I don't want to bring you back from the dead;
My heart is buried too far down.
I don't wanna',
I don't wanna',
I don't want to bring you down

I don't want to bring you back from the dead;
This song is killing me right now.
I don't want to bring you back from the dead;
My heart is buried too far down.
I don't wanna',
I don't wanna',
I don't want to bring you down
And I'll never fall in love again.
I don't want to bring you back from the dead;
This song is killing me right now.
I don't want to bring you back from the dead;
My heart is buried too far down.
I don't wanna',
I don't wanna',
I don't want to bring you down
And I'll never fall in love again.
And I'll never fall in love again.
