

# Green Means Go

## I Was Totally Destroying It

Don't say you don't want it this way  
You've burned all the bridges and laughed as they tumble down  
A crowning achievement for most men  
Was a slap on the wrist for nothing  
So I'm ok with walking away

Say if it's all over now

I've dined with the leaders of nations  
I've scrounged with the minimum wage  
I've dealt you my ostentation  
I've shied from the lights of the stage  
I've stood in back of the line of successions  
Been the godfather over everything  
Just don't look down- you'd say

Say if it's all over now

Say, you said you were up for this  
So up for this

Say if it's all over now

---
