All About U

G-Stack

Chad hatcher:
Life?s not what you take, it?s not about the promises you make.
It?s not about the friends you might of made or love that is gone.
Life is what you give, it?s not about the stupid things you did.
Its not about the way things could have been, it?s about moving on.
It?s all about you.
So every morning when you wake before the first step that you take,
Just think it?s all what you make it, and you?ll make it through.
Classified:
This life will leave you stressed out, left out, with your neck out, ain?t nothing changed.
Real life, so we deal right, but it feels like its something strange.
We wondering, the dumbest things, and let every thing get under our skin.
Trouble again, trying to impress somebody else is fucked in the head.
So do you. You?ll never make every one happy, it just won?t happen.
But the end of the day when all say is said, you better be ready to go back at ?em.
I learn slow, my verse show?s my growth my wisdom.
If your positive or you negative, It don?t make a difference not when you living.
?Cause some of the most successful people on this planet, will kill them selves or somebody else. Life they really couldn?t manage.
Then we got bums, alcoholics on the streets. With no stress, no where to rest, no where to dress, no where to sleep. And they say: fuck my morals, I'm drinking away my sorrow,
I?m living life and I?m happy, I ain?t thinking about tomorrow.

Life is what it brings, it?s not about cars and fancy things.
Or hair salons and diamond rings girls. Don?t you lose no sleep.
Life is all about, the things you?ll never figure out.
It?s all about the people you love, and memories you keep.
Classified:
This here is life, so tell me who chooses what?s wrong and right.
Is it what we see on TV, get a job raise a family.
That?s how I was raised, how I was brought up, get a wife a son and a daughter.
That?s how I was taught to be proper, never thought anyone can get caught up.

But slowly I grew up, and the fairy tail quickly vanished.
Realized that life?s a bitch, and shit you gotta be able to stand it.
And you gotta be able to handle it, the stress and the pressure you channel it.
And you learn to cope at the end of your rope, anyway that you can with liquor or dope.
Or work hard raise your kids, strip clubs what ever it is.
Smoke weed, shoot hoops. What ever you find your happiness through.
It?s your life. Just make sure you know what you want when you go to get it.
Keep doing this shit for you. Not your crew, or the dude you tryin' to impress kid.
Life is simple, life is hard, and yeah life is fun.
So enjoy the things around you. Before your life is done.
