

# Share Your Love

## Earth, Wind & Fire

Love is the light, gonna let it shine  
Living each day, you're sure to find, yeah, yeah  
Another heart that's warm and true, yeah  
Shining the light in return to you, yeah, yeah  
Share your love, don't try to restrain it  
Love, don't need to be afraid to  
Love, everybody get together  
Let every heart, around the world do its part  
The voice of love, ringing loud and clear, yeah, yeah  
To every heart with a listening ear, yeah, yeah  
Hostage of hate and chain of fear, yeah  
Send Dr. Love, they will disappear, yeah, yeah  
Share your love, don't try to restrain it  
Love, don't need to be afraid to  
Love, everybody get together  
Let every heart, around the world do its part  
You're number one 'cause deep inside, feelings still abide  
You're number one, you light the way, night becomes the day  
You're number one 'cause we feel it's true  
Yes, inside we do, you're number one  
Share your love, don't try to restrain it  
Love, don't need to be afraid to  
Love, everybody get together  
Let every heart, around the world do its part  
Let every heart, around the world do its part  
Share your love, don't try to restrain it  
Love, don't need to be afraid to  
Love, everybody get together  
Let every heart, around the world do its part
