

# All Eyes on You

## St. Lucia

I will never take back,  
The words that I said,  
That I will always come back to you,  
and even in the meantime I will always stand by,  
A mirror on the shelf,  
Call you in the nighttime,  
Call you in the daytime,  
I can't face up to you.'Cause I hope we will never have to take back,  
What was said in the night,  
I hope that I'll always have,  
All eyes on you,  
Know that I'll take what I can,  
When you are there standing by,  
Soft-spoken in the dead of night,  
All eyes on you.
