Lay Your Head Down

Screaming Trees

Advisory - the following lyrics contain explicit language:

Nowhere is the soul I felt
Now I've lost my way
Nowhere is the place I've been
Promise not to stayHow it was and always is
Sometimes it never will beginAnd it won't take very long, if you come around
(Too long)
If it all goes wrong, you can lay your head downNothing is inside the hollow
Shell I left behind
Nothing left of innocence
It's drifting with the tideHow it was and always is
May be it never will beginAnd it won't take very long, if you come around
(Too long)
If it all goes wrong, you can lay your head downNowhere is the love I felt
Now I've lost my way
Nowhere is the place I've been
Promise not to stayHow it was and always is
Sometimes it never will beginAnd it won't take very long, if you come around
(Too long)
If it all goes wrong, you can lay your head down
And it won't take very long, if you come around
(Too long)
If it all goes wrong, you can lay your head down, alright
