Wish You'd Stay

Ingram Hill

Lie all you want
'cause you can't face your fear
I'm not alone, but I'm still standing here
You know it baby, we've got something goin'
We'll find another time to think of home
All I can see through these hazy eyes
Is all that I need, we're running out of time
Don't worry, baby, no one's got to know
Tomorrow you can find your way back home
But I wish you'd stay
Where's all the fun in how you're living now
I'm that someone, that you can't do without
You know it, baby, you know it's not wrong
If you want, go find your way back home
But I wish you'd stay
Tell me I'm not on your mind
Tell me I'm a waste of your time
Thinking that you'll be just fine
But you won't, 'cause you don't believe it
You know it, baby, you know it's not wrong
If you want, go find your way back home
But I wish you'd stay
Lie all you want
'cause you can't face your fear
