Downstream

Pedro Costa

Took a boat Sunday, down by the sea
It just felt so nice, you and me
We didn't have a problem or a care on us
And all around was silence, everywhereYou are the reason I was born
Be with you through all seasons
I'll always hear you
When you callWe'll keep the love light shining
Through each night and day
A lonely life behind me
Oh, what a change you've madeSo down here on the ocean
We will stay, we will stay, we will stay
Went through a lot of changes
Turned a lot of pages
When I took a boat on SundayTo know you, as I know you now
That is all I need
And we will get along somehow
If we both believeSo down here on the ocean
We will stay, we will stay, we will stay
Went through a lot of changes
Turned a lot of pages
When I took a boat on Sunday
