

# Acid Flesh

## White Zombie

Great white eyes bleed away the trembling sound  
No more time, body spasm deep and passing acid flesh  
Human river stepping stones of love and death A living legend's legacy yeah, hustler of the dead  
Revolution steals the world and turns the sky to red  
Home sweet hellhole to the last man on earth  
See what the face of evil is truly worth, yeah Turn your eyes to the sky a corpse of blue  
Night is time growing strong with every moment  
Acid flesh chaos pulsing in my veins, yeah Hell house temptation walk on to salvation  
Cold steel-pain trust hot blood-forever lust  
Raw horror make cheap thrills twitch the nerve get your fill  
Razor make clean cut river red so what  
Gut twisting holiday skin dripping pay to play Stain is blood without a doubt God slayer action  
Eye to fist fist to eye, dig the war anyway  
Killing time, killing time, bending cracks up in my mind Bite down  
Bite down Money burns in my hands  
I can't seem to get enough  
Hammerhead says to you  
Love is the one thing money can buy Bite down  
Bite down  
Down  
Down
