One Day Closer (feat. Nate Evans)

Edo

(Verse 1)
Tonight, when I met you,
Your lips said no,
but the look in your eyes were screaming out, let's go
I started to read you
I broke your chord,
feeling the tension you, and I explode..

(Chorus 1)
ohhh,
you're the bullet I'm the gun,
yeah you're my, ammunition..
One day closer to your love
nothing but heat between our bodies
show me where your heart is at..
you've been lonely for too long
tell me all the ways that you want to touch me
baby don't hold it back

(Verse 2)
As I lie here beside you
I know it's yours
no need to question, anything we know
you're my perfection
I can't let go
stay here forever
in the after glow

(Chorus 2)
You're the bullet, I'm the gun
yeah you're my, ammunition
one day closer to your love
nothing but heat between our bodies
show me where your heart is at
you've been lonely for too long
tell me all the ways that you want to touch me
baby don't hold it back

(music intermission)

(don't hold it back)

(Chorus)
One day closer to your love
nothing but heat between our bodies
show me where your heart is at
you've been lonely for too long
tell me all the ways you want to touch me
baby don't hold it back

(Chorus repeat)
One day closer to your love
nothing but heat between our bodies
show me where your heart is at
you've been lonely for too long
tell me all the ways that you want to touch me
baby don't hold it back

(end)
one day closer to your love
one day closer to your love
