

# Ghost Pressure

## Wolf Parade

Maybe I just don't understand  
Make me feel like another man  
And I kissed you there on orchard road  
Ooh oh ooh ooh Pulled the car from the empty street  
Empty room and empty anekatips sea  
I know they're dancing there invisibly  
ooh ooh ooh ooh Little vision come shake me up, shake me up (x4) Said your heart was a swarm of bees  
And they don't and they will never leave  
I hear them buzzing there invisibly  
ooh ooh ooh ooh ooh ooh And now it's just you and me  
Well I could do a little mystery  
And you just had to know  
ooh ooh ooh ooh ooh ooh Little vision come shake me up, shake me up (x7) A little vision come, come and  
shake me up (repeat)  
Ghost Pressure come shake me up, shake me up (repeat)
