Taking on Water

Matt White

You call me when youre coming through town
You leave me with my skies falling down
You say its cause youre lonely thats all
Maybe leavings what leaves me better off
Tell me someday you wanna stay
You think its better when youre running away
Its your eyes that keep me hanging around
Make me drive all night to get to your house
You know Im taking on water
You know Im taking on water
You know Im taking on water
Ill wait up one more night to believe
Youve got the time to give up on me
To pull me from wreckage inside
Ive been drowning in the heartache you hide
You know Im taking on water
You know Im taking on water
You know Im taking on water
Just go if you wont to leave
I think we both know where youre wanted to be
You know Im taking on water
You know Im taking on water
You know Im taking on water
You know Im taking on water
