

# Puzzle

## Dada

There's a puzzle in my head  
Spend a lifetime finding pieces  
It will take forever to put together  
    The square and the round  
    Something that proves I'm not  
Hangin' around, hangin' around You wanna leave, you wanna leave  
    But there's someone inside you just don't trust  
    You wanna leave, you make believe  
That your life is not a wreck and it will never rust, no  
    Don't want your money  
    Your milk and honey  
    You'll never love me  
I won't bring you down  
    Yeah, there's a desert in my head tonight  
    I'll lie here like a dead man all night  
    I still have a face, it looks like mine  
    If only, if only, if only, if only  
If only, I could reach my mind  
    You wanna leave, you wanna leave  
    But someone inside you just don't trust  
    You wanna leave, you make believe  
That your life is not a wreck and you'll never rust, no  
    Don't want your money  
    Your milk and honey  
    You'll never love me  
I won't bring you down  
    Don't want your money  
    Your milk and honey  
    You'll never love me  
I won't bring you down, down, down, down  
    You'll never love me  
    I won't bring you down
