

# Watch Where You Walk

Frankie Valli

Watch where you walk the road of the life is marked where to walk.  
Your heart tells you to stop and to go or take it slow.  
In all you do be true to you.  
Oh' baby watch where you walk.  
Your cup is full of love when you walk.  
Go always with your head held up high let your heart fly.  
But on the way don't ever stray keeping looking thru the dock of night.  
You wait for that guiding light to shine along.  
Then when you walk, together never to far to walk.  
cuz two can do it better than one.  
The climb is fun you're in your own, sweet welcome home watch where you walk.  
Watch where you walk.
