

# Last Night

[Eric Clapton](#)

Last night, I lost the best friend I ever had  
Oh, last night, I lost the best friend I ever had  
She's gone away and left me  
That makes me feel so bad  
It was early in the morning  
And my love is coming down to you  
Early in the morning  
And my love is coming down to you  
I'll love you, love you, baby  
Till I don't know what to do  
Last night, I lost the best friend I ever had  
Oh, last night, I lost the best friend I ever had  
Now you've gone away and left me  
That makes me feel so bad
