Days to Recall

Justin Hines

When are all the stars
They fade into black
and leave you without a way back
well hang on, there's always a road

It just take sometime
To trust in a dream
There's light in a place you can see
Believe me, you're not alone

For the lost of your time
Raining heart will continually fall
Cuz nights to forget
Make way for days to recall

Days to recall
Days to recall
You're waiting us all
Those days to recall

Should all the tries
of a faith leaving day
They don't match the plans that you made
We'll know that, it's time to move on

Cuz you know that there's trouble

and you wait for the call
That nights to forget
make way for days to recall

Days to recall
Days to recall
They're waiting us all
Those days to recall

And often we cry
and forget to rejoice
some say that's life now

not a choice

When darkness rains
Promise you make

Days to recall
Days to recall
They're waiting us all
Those days to Recall

Days to recall
Yeah those days to recall
They're waiting us all
Those days to Recall

They're waiting us all
Those days to recall
