Pete Townshend

Any tough can fight, you can play
Any fool can fall, can lay
Any stud can reproduce, few can please
Any boy can pay a bill, you can tease I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular Any man can claim, few can find
Any girl can blink, few can lie
Any soul can sleep, few can die
Any wimp can weep, few can cry I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular I wanna be more popular than the rest
I'll do anything anything to impress
Everyone is average but I just wanna be the best
Everything thing I do has to be a fact of interest Popular, I wanna be popular
I just gotta be popular, popular Any brain can hide, few can stand
Any kid can fly, few can land
Any gang can scatter, few can form
Any child can chatter, few can storm Anyone can fight, few can play
Anyone can try but few can stay
Anyone can cuss but few can lay
Everyone complains but you can say I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular I just wanna be popular, popular
I just wanna be popular, popular
I don't really care who you are
I just wanna be popular
