

Erase the Doubt

Mushroomhead

Come down
From your thrown
And tear off your wings Do you still feel so above
After the arrows
Sting Can you give me enough
To believe anything Can you erase the doubt And make this more than a dream
And give me more than i need Herein the day of upon us
Much less caring
For others haunts us
No one can make another
Promise to us You find it strange how
The darkness calms us
Alone at home and hopeless Drown in the life
Weve left behind us
