

# Like That (feat. Skate)

## Jack & Jack

I ain't never met a girl like you  
And you'll never find a man like me  
Walking out the door with you on my arm  
You can hit me on my phone anytime you want  
You got me goin' mad when you dress like that  
Girl, it's a trap when you act like that  
I ain't even mad when you dress like that  
I know you, know you bad when you act like that  
Oh yeah

Met a bad bitty from the state of Mississippi  
Really pretty and I wanna take her home to see the city  
Doing your thing got me insane  
Walk in the mall and you cop me a chain  
I was like damn you hot as a flame  
Your mom is the only one that you can blame  
You so cute girl, yeah, you is a blessing  
And I'm the reason that your boyfriend keep flexing  
Never stop texting every time I see your name up in my phone  
I'm just picturin' your body in that dress and makeup on  
You don't even need the makeup, save that shit for later  
You the baddest thing I seen, I'm thanking your creator  
Girl, I see you working like Miley Cyrus be twerkin'  
I'm certain you'll be screaming for me when I close the curtains  
But it's funny cuz I'm the one screaming out for ya baby  
I been messing around with too many girls I need a lady  
Hoping you can be the one but you need to show it  
And if you prove it to me, all this money girl we'll blow it

I ain't never met a girl like you  
And you'll never find a man like me  
Walking out the door with you on my arm  
You can hit me on my phone anytime you want  
You got me goin' mad when you dress like that  
Girl, it's a trap when you act like that  
I ain't even mad when you dress like that  
I know you, know you bad when you act like that  
Oh yeah

Walked up in the spot, we do this a lot  
Livin' at the top, attention you caught mine  
Let's pop a bottle, good god, look at what we got  
Got double take like a stop sign  
I thought I would be done with al of this stuff  
But shit, I guess not  
I'm tryna get at ya  
Trust me I'm not your average individual  
Yeah, I can slow it down  
And I ain't talking about verses  
I know what you're worth  
In my head I've already bought you a purse and much more  
And I got everything you need just like the drug store  
Oh, an before you ask, keeping haters off my nuts  
Yeah, that's what the cuff's for  
A bunch more chances are coming your way  
But I know that you'll take me  
It's crazy how people get lost in love mixed up  
I'm beginning to daydream of what we can be  
And things we can do if you give me your time  
But tonight all that's on my mind  
Is getting to know you and making you mine  
You're a dime, girl  
A straight ten like holy moly me oh my  
I don't even know where to begin and let's pretend  
That in this moment in time we're more than friends  
And I recommend that you and I get familiar

I ain't never met a girl like you  
And you'll never find a man like me  
Walking out the door with you on my arm  
You can hit me on my phone anytime you want  
You got me goin' mad when you dress like that  
Girl, it's a trap when you act like that  
I ain't even mad when you dress like that  
I know you, know you bad when you act like that  
Oh yeah
