

# Time Out from the World

## Goldfrapp

Breathing in your sip of gold  
I follow all your little lines  
I like to watch a thousand times  
I want to feel you here I like to watch a thousands times  
I make a shrine for you Time out from the world  
Leaving it all just for a day  
You, like there's a down  
Hold me and 'round, take us a day Here I go, I'm going back  
On every word you ever said  
I'm dreaming of another time  
Yesterday was my alibi We changed the world, just you and I  
I make a shrine for you Time out from the world  
Leaving it all just for a day  
You, like there's a down  
Hold me and 'round, take us a day
