Highlight

Storyhill

CHORUS:
Day to day
You're the hi ... highlight
Day to day
You're the hi ... highlightYou're the bright side of my darkness
You remove my gloom
You picked me up when times got rough
I'm glad you had some room
To love and hold me close to your heat
To keep me safe and warm
You're the height of my desire
You set off my alarmCHORUSI can't wait to see you
From one moment to the next
With you I never know what new thrill to expect
Your perfect sense of timing
Keeps me coming back for more
You're the spark that lights my fire
It's you that I adoreCHORUS
