All That I've Got

The Used

So deep that it didn't even bleedin' catch me
Off guard, red handed, now I'm far from lonely
Asleep I still see you lying next to me
So deep that it didn't even bleedin' catch meI'll, I need something else would someone
Please just give me, hit me
Knock me out and let me go back to sleep
I can laugh all I want inside, I still am empty
So deep that it didn't even bleedin' catch meI'll be just fine, pretending I'm not
I'm far from lonely and it's all that I've got
I'll be just fine, pretending I'm not
I'm far from lonely, well, it's all that I've gotI guess, I remember every glance you shot me
Unharmed, I'm losing weight and some body heat
I sqouze so hard, I stopped your heart from beating
So deep that I didn't even scream, fuck meI'll be just fine, pretending I'm not
I'm far from lonely and it's all that I've got
I'll be just fine, pretending I'm not
I'm far from lonely and it's all that I've gotYeah, it's all that I've got
Yeah, it's all that I've got
Yeah, it's all that I've got
It's all that I've got
It's all that I've gotSo deep that it didn't even bleedin' catch me
So deep that I didn't even screamI'll be just fine, pretending I'm not
I'm far from lonely and it's all that I've got
I'll be just fine, pretending I'm not
I'm far from lonely and it's all that I've got
It's all that I've got, it's all that I've got
