My Religion

John Verity

Iâ€™m sick of listening to the words of fools
Different religions, same old rules
I live my life, never think twice
About the virgins in Paradise
Damn the Dinosaurs for spoiling your claims
I try to reason but itâ€™s all in vain
I think Iâ€™ll leave you to your beliefs
Simpler things seem like Heaven to me

Chorus:

I wanna sing some soul with Aretha
Stand on stage next to BB King
Nothing to lose
Iâ€™ll be playing the blues
Youâ€™ve still got time â€“ sign up to My Religionâ€¦

Verse
Come on and join me, Iâ€™m having a gas
Make up your mind, time is moving fast
Lets get together, together is good
Donâ€™t be shy â€“ you know you should

SOLO

Verse
Iâ€™ll have James Brown to teach me to dance
Georgio Armani, makinâ€™ my pants
Leo Fender fixing my guitars
And Chuck Berry driving in my carâ€¦
