Speaking In Tongues

The Elms

Got the kind of face everybody knows
Run around barefoot when it snows
Growin' out your hair 'cause you like it long
Fighting in the road 'cause you know it's wrongPeople got a thing for the dangerous
You'll find it inside the best of us
Taking what they want like it's owed to them
Some of us do the best we can, some of us do the best we canBrothers, Brothers
Everybody's speaking in tongues, we gotta speak in love
Brothers, Brothers
Everybody's speaking in tongues, we gotta speak in loveNever met a man, said he did not try
Running from the truth time again in life
You can be the poor one, rich or wise
Everybody knows 'bout sacrificeSo put me in the water, put me in the fire
Put me in the world and I'll walk that wire
Seen the people come and I've seen them go
Talk all day but it's what they show, talk all day but it's what you showBrothers, Brothers
Everybody's speaking in tongues, we gotta speak in love
Brothers, Brothers
Everybody's speaking in tongues, we gotta speak in lovePeople got a thing for the dangerous
You'll find it inside the best of us
Taking what they want like it's owed to them
Some of us do the best we canPut me in the water, put me in the fire
Put me in the world and I'll walk that wire
Seen the people come and I've seen them go
Talk all day but it's what they showBrothers, Brothers
Everybody's speaking in tongues, we gotta speak in love
Brothers, Brothers
Everybody's speaking in tongues, we gotta speak in love, love, love
